

Walk Across Texas Logo Requirements

The following requirements are meant to provide guidance as you design tee-shirts, posters, etc. for the Walk Across Texas program in your county.

- The Walk Across Texas logo must be used as it was originally designed—no modifications.
- If you desire to have another image and/or to use that image larger than the Walk Across Texas logo, that is fine. However, the image must not represent a modification or reinterpretation of the Walk Across Texas logo. It must be very different.
- When sponsor logos are used, the Texas AgriLife Extension Service logo must be larger than all the others, indicating Extension's role as the developer and administrator of the statewide program, in contrast to local sponsorship in a single county.
