I wish to participate voluntarily in the Walk Across Texas! program. While it is generally not necessary to see a health care provider before beginning every-day physical activities such as walking, we encourage you to talk with your health provider about your health and exercise as part of your regular visits.

Exercise can sometimes result in injury. However, it is generally much more harmful to your health to be inactive. As a general rule, it is always a good idea to start at a level that is easy for you to build up slowly.

I agree to accept full responsibility for any injuries I may sustain while participating in this program.
