PURPOSE OF THESE LOGO GUIDELINES

As Texas A&M University AgriLife Extension promotes our Walk Across Texas! initiative, it is important to maintain the integrity of communications across all media – print, digital, video and more.

The consistent use of logos, typography and color will ensure our communications efforts are both memorable and recognizable as distinctively ours.

These guidelines will ensure that TAMU AgriLife Extension personnel, vendors and agency partners express our brand identity effectively across all advertising and marketing communications executions.

BRAND STORY AND BRAND PERSONALITY

To complement development of the Walk Across Texas! logo system, a Brand Story and a Brand Personality were created.

Together, the Brand Story and the Brand Personality provide a framework for guiding conversations about the Walk Across Texas! program to all of our potential constituents.

While these are internal documents and are not consumer-facing, both help set the tone for how we talk about ourselves and what we say across all marketing platforms.
BRAND STORY

For Texans walking the road to a healthier life, the journey begins with a single step.

And then another. And another. And another.

For almost 20 years, these steps have been supported and surrounded by friends, family, co-workers and thousands of others — all thanks to Walk Across Texas!

A free, eight week program designed to help Texans establish the habit of regular physical activity, Walk Across Texas! is an 830-mile challenge that connects people to fitness and fun.

By giving Texans access to healthy resources, helpful tips for a healthy life and a community dedicated to physical activity, Walk Across Texas! helps Texans walk across the state by putting their best foot forward — for health.
BRAND PERSONALITY

Not every marketing message can convey every element of the Brand Personality. However, each communication should reinforce one or more of the attributes outlined below.

Walk Across Texas! is...

communal

With the ability to create a team of eight or join a team needing an additional person, Walk Across Texas! connects people through a positive journey towards a common, healthier goal.

empowering

With numerous resources and tools available to meet the goals of health, physical activity and figuratively walking the 830 miles across the state, Walk Across Texas! activates and motivates people to do more — for their life.

life-changing

By completing the eight-week program, you will feel better, lower your stress level and get all of the additional benefits of regular physical activity, not to mention creating long-standing, healthy habits of physical activity.

for everyone

All Texans are encouraged to take part in Walk Across Texas! No matter your fitness level, all you need is 30 minutes a day to realize the benefits of a healthier life.
TARGET AUDIENCE

Through the Walk Across Texas! program, TAMU AgriLife Extension seeks to reach Texans wanting or needing to adopt a healthy lifestyle.

More specifically, the program hopes to target individuals including:

- Stay at-home parents
- Young professionals
- Individuals coordinating wellness programs on behalf of their organizations
LOGO

The Walk Across Texas! logo is a critical component of the program’s brand identity. Strict adherence to the guidelines for logo usage ensures we project a strong and consistent persona across every platform.

Usage Guidelines

- Always use original artwork for the logo; poor-quality reproductions are unacceptable.
- Never combine the logo with other figures, words, trademarks or symbols.
- The logo may often appear on a dark background color. To ensure optimum legibility, reversed-out logos should not appear on backgrounds with a tint lighter than 50%.

Logo Color

The Walk Across Texas! logo can appear in color variants drawn from the primary color palette (see page 12).
